

# Let's talk about *Respect & Equity*

## Tip 1

### *Commit to respectful relationships*

“Gender equity in (**Insert organisation name**) is for people to be able to have courageous conversations. For us to have an environment where it’s normal to have..... conversations, whether they’re courageous, caring, or individual. They have to be under that umbrella of respect; if you have that umbrella of respect, then gender equity will flow from it.”
